DATE:

Traceability ⇒ Tracking (live) etc like TCS System.

Batch ⇒ production (of quantity) at a same time like (Class of 2030) → a Single Batch

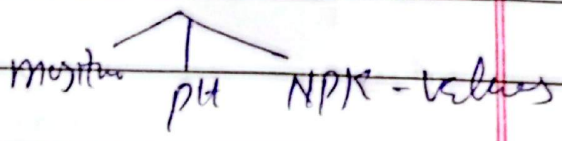

Intelligence ⇒ Smart, automate

Phases :-

Raw to production

Product to QC-Tests

Then Test → Dispatch

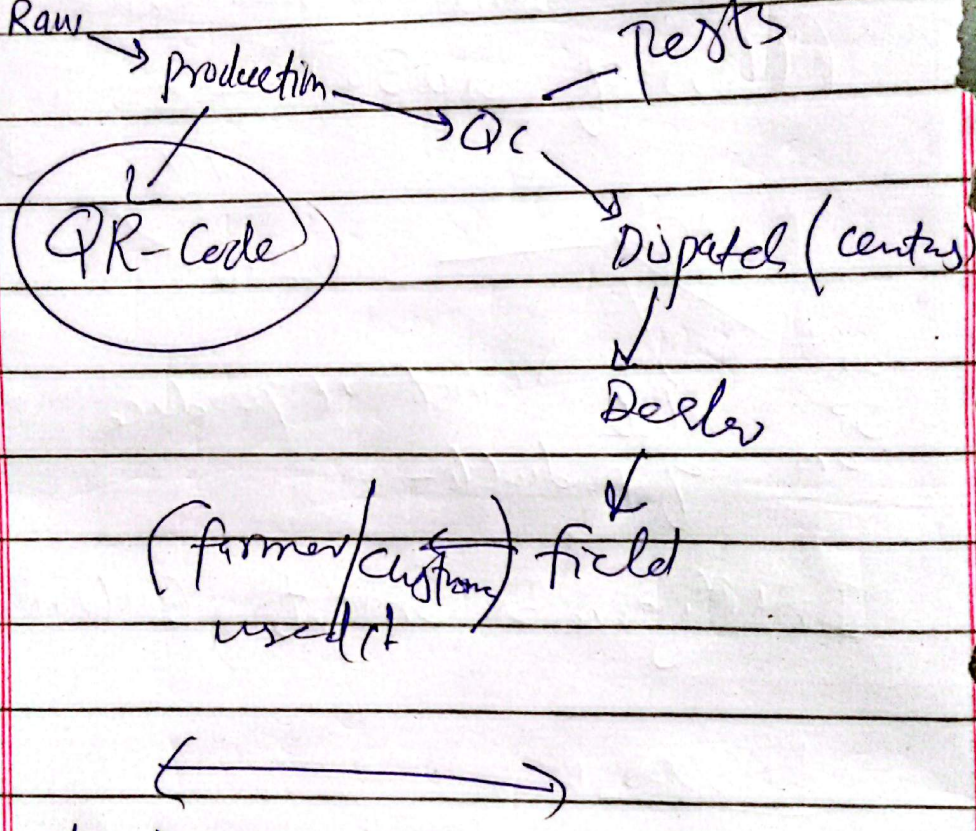

Dealer → field.

M T W T F S

DATE:

Tracking :-

How many hands the product is being / goes passes on ——?

Complaints :-

forward & Back tracking

Raw ——→ field

←——

Bi-directional

M T W T F S

Either problem farmer
k side ky hai ya
production side, we
just want to find
out the exact location
point etc. where problem
is.

Study Example

FBR, Govt ky projects
TCS system and
more.

Design a framework etc.
